

WR 470.5 Bushel Gourd DVD

You may have seen the written accounts of how a 470.5 Guinness World Record Bushel Gourd was grown in 2020. But there is so much more information to share. We have now captured (in a 1 hour DVD), a far more detailed record of events leading up to and including the 470.5 World Record milestone.

We carefully recalled all the techniques and details of this record breaking event in this DVD, with over 100 photos, video clips, powerpoints, numerous reports and narrations of EVERYTHING we did.

Cost of the DVD is \$12 in the US including P&H, or \$13.20 for international orders. **5% of all proceeds will be donated to the GPC.**

To receive a copy of the DVD, you can use paypal. Reference this email:
